WARNING

This document contains Information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Luga Army Barracks South is located in a wooded area 6 kilometers (km) south of Luga astride the main Luga-Pskov road (Figure 1).

The installation covers 265 acres, is partially secured, and contains 3 administration buildings, 3 administration/barracks, 11 barracks, 30 storage buildings, 69 support structures, 1 probable POL storage tank, an athletic

field, and a small-arms firing range (Figures 2 and 3).

KEYHOLE missions of interpretable quality photography covered the installation between [REDACTED] Comparative analysis revealed continuous activity with little physical change.

DESCRIPTION OF INSTALLATION

Railroad Service

The Luga-Batetskiy rail line passes 1.6 km to the north and the Luga-Pskov line passes 3 km to the west.

Road Service

The installation is served by the Luga-Pskov all-weather road.

Aircraft Landing Strip

Luga Southeast Airfield is located 12 km east.

Administration and Troop Housing Areas

Area D1 contains 11 barracks (6 multistory) and 20 support buildings. Eight rows of unidentified vehicles/equipment and 6 rows of bulky equipment were observed in the open on [REDACTED]

Area D2 is fenced and contains 3 administration buildings (2 multistory), 3 multistory

administration/barracks buildings, and 22 support buildings.

General Storage Areas

Area E1 contains 23 storage buildings and 21 support buildings. All buildings except 4 of the support buildings are secured by a fence.

Area E2 is fenced and contains 7 storage buildings and 4 support buildings.

POL Storage Area

Area G contains 1 large probable POL storage tank and 2 support buildings.

Athletic Field

Area K is an oval track.

Small-Arms Firing Range

Area L is a 900- by 150-foot small-arms firing range which slopes downward toward the butt end.
